ReadSoft: "Lower limit is greater than upper limit" error when filtering documents in Process Director

14990
3014727

Issue:
When filtering documents in Process Director, the following error is shown: "Lower limit is greater than upper limit"

Answer / Solution:
This error occurs when the lower limit in a defined range is greater than the upper limit of the defined range.

To resolve this issue, ensure that the range limits are correctly defined.

Additional information is available in SAP Note 1243840.
