Kofax TotalAgility 7.x Designer - Silverlight End of life
3018073

Question / Problem:
As Silverlight will be going through end of life on the 31st of January, 2020, for IE 10 and the Designer on Kofax TotalAgility 7.5 version runs on Silverlight, can you please let me know what are the alternatives and recommendations for the continued support for the Kofax TotalAgility Designer?

Answer / Solution:
Kofax TotalAgility version 7.6 does not use Silverlight anymore and it is replaced with HTML in the Kofax TotalAgility Designer.
Upgrading to version 7.6 is recommended.

Kofax still supports Kofax TotalAgility version 7.5 until July 6th 2022 but unknown Silverlight issue will not be fixed after its support end.
