What is the sequence of events and how are the Online Learning samples being manipulated in the database?

**Question / Problem:**

What is the sequence of events and how are the Online Learning samples being manipulated in the database?

**Answer / Solution:**

The Online Learning System Task is responsible for manipulating the samples, as follows:

- **On Line learning Task picks samples from Doc, Reviews, Validation, and moves them to the state as in the Description Column of the Capture ONLINE LEARNING MAPPING Table:**
  - **Ready to Tasks**
  - **Temporary Document Holding Area**
  - **New Samples**

- **On Line Learning Task moves samples to the state of:**
  - **Ready to Tasks**
  - **Temporary Document Holding Area**
  - **New Samples**

- **To Transformation Designer (Bk: New samples)**
