Kofax TotalAgility 7.x - Why the Navigation menu "Workspace Menu" does not appear?

Article: 20079

Summary
20079

Applies To
Kofax Total Agility 7.x

Behavior / Question
Why the Navigation menu "Workspace Menu" does not appear?

Known Causes / Background
This occurs when you are opening the page in Internet Explorer with the compatibility mode enabled.

Resolution / Answer
To disable compatibility mode, open the “Tools” menu from the toolbar, select “Compatibility View”, “Settings” and turn off (uncheck) the option "Display intranet sites in Compatibility View".
