IPA - Error when exporting an invoice: InvoiceNumberHistoryExporter
Invalid Object name

Applies To

• Invoice Processing Agility: 1.0 and higher

Behavior

• When Exporting and invoice the following error is seen:

  Export failed for document [KTAID] with this error: InvoiceNumberHistoryExporter: Invalid object name 'NONEXISTENTNAME'.

Known Causes

• The above error is raised due to an incorrect Table name specified for the Invoice Number History.

Resolution

• To resolve this error, follow the steps outlined below
  
  ● Launch Solution Configuration Manager
  
  ● Navigate to the Invoice Number configuration settings
  
  ● Check the database table name for the Invoice Number History.
