IPA - Job suspends when running the CSV Export with Method Not Found error

Applies To

- Invoice Processing Agility: 1.0 and higher

Behavior

- Job is suspended when running the DumpAddressFiles job with the below error(s)

"Execution of activity failed. A software exception has occurred, retry the last operation. Unable to load one or more of the requested types. Retrieve the LoaderExceptions property for more information."

Known Causes

- The required IPA.dll's were not installed properly.

Resolution

- Re-Run the IPAInstaller, and ensure all steps are followed.
