Question / Problem:

This guide explains how to configure search helps for the CO-PA fields in the WORK CYCLE/WEB CYCLE Web Application. You can use the standard SAP search helps that are available for these fields.

Answer / Solution:

There are 2 steps to configuring search helps for the CO-PA fields in the Web Application.

Enter How to here:

1. Find the correct SAP search help
2. Configure the settings in /COCKPIT/WI19.

See the attached MS Word document for specific instructions.

Applies to:

<table>
<thead>
<tr>
<th>Product</th>
<th>Version</th>
<th>Category</th>
</tr>
</thead>
<tbody>
<tr>
<td>Process Director Web Application</td>
<td></td>
<td>Configuration</td>
</tr>
</tbody>
</table>
